

THINGS YOU SHOULD KNOW BEFORE YOU REQUEST A QUOTE FOR AN NTM PORTABLE ROLLFORMER

Purchasing an NTM rollforming machine requires a significant business investment. Like all large purchases, the buyer should go into the process as educated and knowledgeable about their operational needs as possible. Before requesting a quote for a New Tech Machinery (NTM) portable metal panel or gutter rollformer, you'll want to establish which machine and options you need for your business. While our knowledgeable account managers can help answer your questions, no one knows your business better than you. We designed this checklist to help you think through your operational needs as a future owner of an NTM rollforming machine and identify the information you'll need for a quote.

MACHINE USAGE

I will primarily use the machine for:

- ☐ Residential work
- ☐ Commercial work
- ☐ Both

FREQUENCY OF USE

Given the size of my operation today, I will use the machine:

- ☐ Frequently (a few times per week)
- ☐ Regularly (once or twice per week)
- ☐ Occasionally (three times or less per month)

FUTURE USAGE EXPECTATIONS

Based on my projected operational needs, in the next 2 to 3 years, I plan on using the machine:

- ☐ More frequently (multiple times per week)
- ☐ A little more frequently (multiple times per month)
- ☐ The same frequency

TRAINING NEEDS

I would like to be trained on my NTM machine:

- ☐ In-house at the NTM plant in Aurora, Colorado (free for machine owners and operators)
- ☐ On-site at my location (daily fee + expenses charged)
- ☐ No training needed

DESIRED PANEL PROFILES

I need the following panel profile(s) for my operational needs:

- | | |
|---|--|
| <input type="checkbox"/> SSQ100 — 1" Mechanical Seam | <input type="checkbox"/> SSQ675 — 1.75" Snap-Lock |
| <input type="checkbox"/> SSQ150 — 1.5" Mechanical Seam | <input type="checkbox"/> FFQ100 — 1" Snap-Lock with Slotted Flange |
| <input type="checkbox"/> SSQ200 — 2" Mechanical Seam | <input type="checkbox"/> FFQ150 — 1.5" Snap-Lock with Slotted Flange |
| <input type="checkbox"/> SSQ210A — 2" ARMCO Mechanical Seam | <input type="checkbox"/> T-Panel |
| <input type="checkbox"/> SSQ450 — 1.5" Snap-Lock | <input type="checkbox"/> TRQ250 — 2.5" Mechanical Seam Trapezoid |
| <input type="checkbox"/> SSQ450SL — 1.5" Snap-Lock | <input type="checkbox"/> SSQ275 — 2" Snap-Lock / Mechanically Seamed |
| <input type="checkbox"/> SSQ550 — 1.5" Snap-Lock | <input type="checkbox"/> BBQ750 Board & Batten Profile |
| <input type="checkbox"/> FWQ100 — 1" Flush Wall / Soffit / Underdeck Panel with Adjustable Reveal | |
| <input type="checkbox"/> FWQ150 — 1.5" Flush Wall / Soffit / Underdeck Panel with Adjustable Reveal | |

PREPARATION FOR SHIPMENT

I have secured these shipping requirements for delivery (not applicable if arranging pickup):

- ☐ Shipping address
- ☐ Dock access or equivalent
- ☐ Forklift

ONLINE RESOURCES

I have reviewed the following supplemental resources from the New Tech Machinery website:

- ☐ Quiz: [Which Roof Panel Machine is Right for Me?](#)
- ☐ Page: [Metal Roof & Wall Panel and Seamless Gutter Profiles](#)
- ☐ Download: [Portable Roof Panel Machine Comparison Guide](#)
- ☐ Article: [How to Get a Quote on an NTM Rollforming Machine](#)
